

A MINOR PROJECT REPORT ON

NEUTRAL NOTE

Submitted to partial fulfillment of the requirements for the award of the degree of

BACHELOR OF TECHNOLOGY

in

COMPUTER SCIENCE AND ENGINEERING

By

KSHEERAJA MANASWINI KUPPA

(21911A0536)

Under the Guidance of

Mrs. CH. DEEPIKA

Assistant. Professor

Department of Computer Science and Engineering

VIDYA JYOTHI INSTITUTE OF TECHNOLOGY

(An Autonomous Institution)

(Approved by AICTE, Accredited by NAAC, NBA & permanently Affiliated to JNTUH, Hyderabad)

Aziz Nagar Gate, C.B. Post, Hyderabad-500075

2024-25

(Approved by AICTE, Accredited by NAAC, NBA & permanently Affiliated to JNTUHI,
Hyderabad)

Aziz Nagar Gate, C.B. Post, Hyderabad-500075

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

CERTIFICATE

This is to certify that the project report titled "**NEUTRAL NOTE**" is being submitted by **KSHEERAJA MANASWINI KUPPA (21911A0536)** in partial fulfillment for the award of the Degree of Bachelor of Technology in Computer Science and Engineering, is a record of bonafide work carried out by her under my guidance and supervision. These results embodied in this project report have not been submitted to any other University or Institute for the award of any degree or diploma.

Internal Guide

Mrs. Ch. Deepika
Assistant Professor

Head Of Department

Dr. D. Aruna Kumari
Professor

External Examiner

DECLARATION

I, **KSHEERAJA MANASWINI KUPPA (21911A0536)** hereby declare that the project entitled, “**NEUTRAL NOTE**” submitted for the degree of Bachelor of Technology in Computer Science and Engineering is original and has been done by me and this work is not copied and submitted anywhere for the award of any degree.

DATE:

PLACE: Hyderabad

KSHEERAJA MANASWINI KUPPA (21911A0536)

ACKNOWLEDGEMENT

I would like to express my heartfelt gratitude to our project guide, **Mrs. Ch. Deepika**, Assistant Professor at Vidya Jyothi Institute of Technology, Hyderabad, for her invaluable support, guidance, and insights throughout the course of this project. Her encouragement and expertise have been instrumental in helping me deepen my understanding and enhance my skills, and I am truly grateful for her mentorship.

My sincere thanks also go to **Dr. D. Aruna Kumari**, Professor and Head of the Department of Computer Science and Engineering, for her unwavering support and motivation during my academic journey. Her dedication to academic excellence has inspired me, and her assistance has been vital to the success of our work.

I am especially grateful to our Principal, **Dr. E. Sai Baba Reddy**, for providing the necessary infrastructure and resources that made this project possible. His commitment to fostering a supportive learning environment has enabled us to fully explore and develop our ideas.

Lastly, I extend my deep appreciation to my parents for their constant encouragement, as well as to the dedicated faculty members who have guided me throughout the course. Their contributions have greatly shaped my progress and have been instrumental in bringing me to this stage in my academic journey.

KSHEERAJA MANASWINI KUPPA (21911A0536)

ABSTRACT

NEUTRAL NOTE

Neutral Note is a cutting-edge platform committed to fostering respectful and constructive communication by leveraging real-time analysis of tone and content in messages. In an era where online communication dominates personal and professional interactions, challenges such as misunderstandings, negativity, and toxic language can significantly impact relationships and reputations. At Neutral Note, we harness the power of machine learning and natural language processing (NLP) to analyze language, detect problematic content, and cultivate a safe, inclusive, and positive digital environment for all users.

Our platform employs state-of-the-art AI algorithms to identify potentially offensive or harmful language in user interactions with remarkable speed and precision. By evaluating key linguistic elements such as tone, sentiment, context, and word choices, Neutral Note can discern not only explicit toxicity but also subtle biases and unintended implications. This advanced detection ensures users receive timely feedback and actionable insights, empowering them to address concerns proactively. For administrators, the platform offers a powerful tool to monitor and manage communication channels, reducing the spread of negativity and fostering healthier digital interactions.

Beyond detection, Neutral Note emphasizes education and improvement. By offering rephrasing suggestions and neutral alternatives for flagged content, the platform helps users refine their communication skills, promoting constructive dialogue rather than punitive measures. This focus on learning and growth transforms challenges into opportunities for self-improvement and community-building, setting Neutral Note apart as more than just a moderation tool.

The broader mission of Neutral Note is to empower communities, businesses, and individuals to create and maintain healthier communication spaces. Whether it's enabling businesses to uphold their values of diversity and inclusion, assisting social media platforms in curbing harmful interactions, or supporting individuals in navigating sensitive conversations, Neutral Note provides a versatile solution for fostering constructive discourse. By addressing issues at their source and encouraging mutual respect, the platform not only prevents conflicts but also strengthens relationships and trust.

As Neutral Note evolves, we envision expanding its capabilities to encompass multi-language support, integration with diverse platforms, and advanced analytics for deeper insights into communication trends. These enhancements will ensure Neutral Note remains at the forefront of innovation, driving positive change in how we connect and communicate in the digital world. Ultimately, Neutral Note aspires to be a catalyst for a kinder, more respectful online landscape, where meaningful connections thrive and harmful interactions become a thing of the past.

INDEX

S.No.	TITLE	PAGE NO.
1.	Introduction	1-2
2.	Literature Survey	
2.1	Toxicity in Digital Communication	
2.2	Overview of Toxicity Detection	3-4
2.3	Machine Learning Approaches	
2.4	Real-time Detection and Feedback Mechanisms	
2.5	Applications in various sectors	
3.	Feasibility Study	
3.1	Technology Feasibility	
3.2	Operational Feasibility	5-6
3.3	Economic Feasibility	
3.4	Conclusion	
4.	System Requirements	
4.1	Existing System	
4.2	Proposed System	
4.3	System Requirements	7-8
4.3.1	Software Requirements	
4.3.2	Hardware Requirements	
4.4	Requirements Definition	
4.4.1	Functional Requirements	
4.4.2	Non-Functional Requirements	
5.	System Design	
5.1	Architecture	
5.2	UML Diagrams	
5.2.1	Use Case Diagram	
5.2.2	Class Diagram	9-20
5.2.3	Object Diagram	
5.2.4	Sequence Diagram	
5.2.5	Activity Diagram	
5.2.6	State Diagram	
5.2.7	Collaboration Diagram	
5.2.8	Component Diagram	
5.2.9	Deployment Diagram	

6. Software Implementation	
6.1 Technologies	
6.2 Modules	
6.3 Methodology	21-27
6.3.1 Detoxify Model	
6.3.2 Google-generative AI	
6.4 Implementation	
6.5 Sample Code	
7. System Testing	
7.1 Test cases & Validation	
7.2 Types of Testing	
7.2.1 Unit Testing	
7.2.2 Integration Testing	28-31
7.2.3 Functional Testing	
7.2.4 System Testing	
7.2.5 White box Testing	
7.2.6 Black box Testing	
7.2.7 Acceptance Testing	
7.3 Performance Testing	
7.4 Validation Testing	
7.5 Output Testing	
8. Results and Output Screens	
8.1 Initial User Interface	32-35
8.2 ChatBot Interface	
8.3 Evaluation Metrics	
9. Conclusion	36
10. Future Enhancement	37
11. References	38
